LICENSE AND REGISTRATION

In accordance with Section 9-A of Chapter 128-A of the General Laws and to aid the Commission in the enforcement of its rulings, owners, trainers, jockeys, agents and stable employees at the horse tracks; owners, trainers, and agents at the dog tracks and owners, trainers, drivers, agents and stable employees at the harness tracks were all licensed. Colors, stable names, kennel names, partnerships, etc. were registered with the Commission.

Through this system a definite record of all persons directly involved in racing is available to the Commission at all times. During the year of 1982 the sum of \$79,437 was realized from all licenses and registrations. The Commission has found this system a most effective aid to its supervision. During 1982 permission was received to increase all license and registration fees effective for calendar year 1983.

RULES OF RACING

Amending the rules of racing is an ongoing process. As situations develop not previously encountered or provided for, analysis is performed, hearings held, etc., and amendments published to cover the situation.

CONTROLLED MEDICATION

The Commission continued the program of analyzing the urine of every winning horse and any other horse designated by racing or commission officials. Every winning horse and all such designated horses are under surveillance of a State Police Officer and a Commission Inspector from the moment the race is over until the specimens of urine are obtained. When urine samples were not obtainable blood samples were taken.

The samples obtained are transported immediately after the close of each racing day by the State Police to the Racing Laboratory within the State Laboratory Institute at Jamaica Plain, MA.

This system has met with approval of horsemen and dogmen by reason of the protection of the samples against tampering before analysis.

At dog racing meetings held during the year of 1982, urine samples were also obtained from winning greyhounds and other such greyhounds as may have been designated by racing or Commission officials. These samples were also transported immediately by the State Police to the Racing Laboratory

During the year of 1982, there were 21,466 urine and 1,111 blood samples taken and analyzed. These samples were divided as follows:

	<u>Urine</u>	<u>Blood</u>
Thoroughbred Horse	5,635	531
Standardbred Horse	2,542	498
Greyhounds	13,289	--
